HLS LINEN SERVICES

OFFERS MULTI PURPOSE

MICROFIBRE TOWELS

THAT ARE IDEAL

FOR AREAS SUCH AS

COUNTERTOPS AND

BEDSIDE TABLES.

WHITE, RED, BLUE, GREEN AND YELLOW

Cloths are made from microfibre construction of 80% polyester and 20% polyimide fibres. Microfibres are able to hold six times their own weight in fluid. These special fibres create thousands of microscopic channels that absorb, capture and remove dust from multi-surface areas. The positively charged microfibrils also attract negatively charged dust and dirt allowing for more effective cleaning.

The lint-free Microfibre is delicate enough not to scratch surfaces yet is strong enough to remove tough stains and reduce bacteria. The ultra fine fibres have the ability to absorb more particles than any other fabric.
